PPE CATEGORY II

Read the instructions carefully.

Complies with the requirements of the Regulation (EU) 2016/425

Product: Winter gloves.

Design:	„ZARO WINTER“	Code:	3700 012 250 11	Size:	11	Production design:	1609
Material:	Cotton flannel insert, covered with thick PVC.						

Purpose: They may serve as a protection of hands against dirt and protection in the working areas where workers have to face mechanical hazards also at the cold environments. Designed for manipulating materials in both dry and damp environments. Put the gloves on dry, clean hands.

The gloves were tested in accordance with EN 388 - mechanical hazards (The higher the number, the higher the protection factor)			 A.B.C.D.	The protection works only against the specified hazards. Do not use the gloves as a protection against different hazards and classes. The results apply only for the model classes, not for the protection levels (classes). The protection levels (classes) are determined based on the tests carried out in accordance with the conditions determined in the valid standards specified here. As for the gloves with two or more layers it does not necessarily reflect the properties of the outer layer.
A (0-4)	Abrasion resistance	Performance level 4		
B (0-5)	Cut resistance	Performance level 2		
C (0-4)	Tear resistance	Performance level 2		
D (0-4)	Puncture resistance	Performance level 1		
EN 511 – Protective gloves against cold				
a (0-4)	Resistance to convective cold	Performance level X	 a.b.c.	
b (0-4)	Resistance to contact cold	Performance level 1		
C (0 or 1)	Water penetration	Performance level X		
EN 420 - protective gloves (general requirements)				
(1-5)	Dexterity	Performance level 2		
„X“ = test not performed or not applicable..				

Please note: The user must check the gloves before and after use to verify that they are in the required condition. Do not use as a protection against different hazards and classes. Do not use for manipulating hot or heated objects, toxic chemicals or greasy objects. Gloves material may be damaged by oil, mineral oil, greasy and solvent organic. Gloves can when soaked lose their insulating properties.

It is not allowed to wear these gloves in cases with risk of entanglement with moving parts of machines. The mentioned facts may help the user for rational use of this type of protective gloves. It is the responsibility of every user to judge, whether the gloves are used in suitable conditions.

Maintenance, lifetime After use, make sure the gloves are removed from all pollutants. To prolong the life of the glove. The gloves are designed for single or short-term use only. If the gloves are soiled, they must be washed with soap and water at temperatures of max to 40 °C, then the gloves need to be thoroughly dry. Damp gloves should be dried out at a room temperature. Gloves should not be washed. Do not clean chemically, bleach, dry in a tumble dryer, or iron. The gloves that are worn through, have holes burned through, or are hard must be replaced. We are not responsible for possible reduction of the protective function caused by improper maintenance. Under suitable storage conditions, shelf life is 2 years.

Storing and transport: Storing in a clean, dry and ventilated place at the room temperature, without any contamination by moisture, dirt, mould, or other agents reducing the level of protection. Do not expose it to solar radiation. The supplier doesn't provide warranty for such damage. Carry them preferably in original package.

Accessories: The product is supplied without accessories.

Dangerous admixtures: The product does not contain any substances, which are known for their adverse impact on hygiene and health of users nor there are suspected of it. In spite of that, the materials which come into contact with a user's skin can cause an allergic reaction in sensitive individuals. If skin irritation or allergic reaction do not use gloves and contact your doctor immediately.

Disposal: Dispose of used gloves with respect of the soiling level according to the applicable disposal regulations and the regulations of the local authority. Unused gloves can be disposed of with domestic waste.

The Notified Body that performs conformity assessment: Notified Body No. 0075, CTC 4 rue Hermann Frenkel 69367 Lyon cedex 07 France.

The Declaration of Conformity can be found here: www.canis.cz; for individual products, in the bar "Documents to download".
